
Our Team Members Are Difference Makers, Not Caretakers.

Courtyard team members come to work each day to build long-lasting relationships with our older adults. We are rooted in the belief that fostering a culture of love and support among our team is the cornerstone of our care philosophy. Simply put, our leaders believe that if we treat our team well, they will, in turn, love our residents well.

At Courtyard, each day is filled with opportunities for laughter, companionship, and a sense of purpose.
